CONTENTS

MEDSTOR TRAYS:
The true heart of our very own UK manufactured storage systems.

EVERY STEP OF THE WAY
CONSULTATION, SPACE PLANNING, PRODUCT DESIGN AND INSTALLATION
ALL WITHIN YOUR BUDGET

From a single room to a complete hospital, we will work with you from start to finish.

Our services don't just end after the installation, it's important to us that you are 100% satisfied with all aspects of the Medstor products and services:
Post installation, fine tuning and extensive warranty offers, plus long term after sales service will give you peace of mind for continual use.

Assessment

Our leading healthcare representatives begin by assessing your current situation in terms of materials holding, throughput, space planning and working practices. After consultation we will develop a tailored individual plan using current best practice to implement change.

Preparation

We offer a free site survey and planning service from our very own in-house team. Personalised layout plans and 3D visuals can be produced of your project along with a fully itemised product matched Medstor quotation.
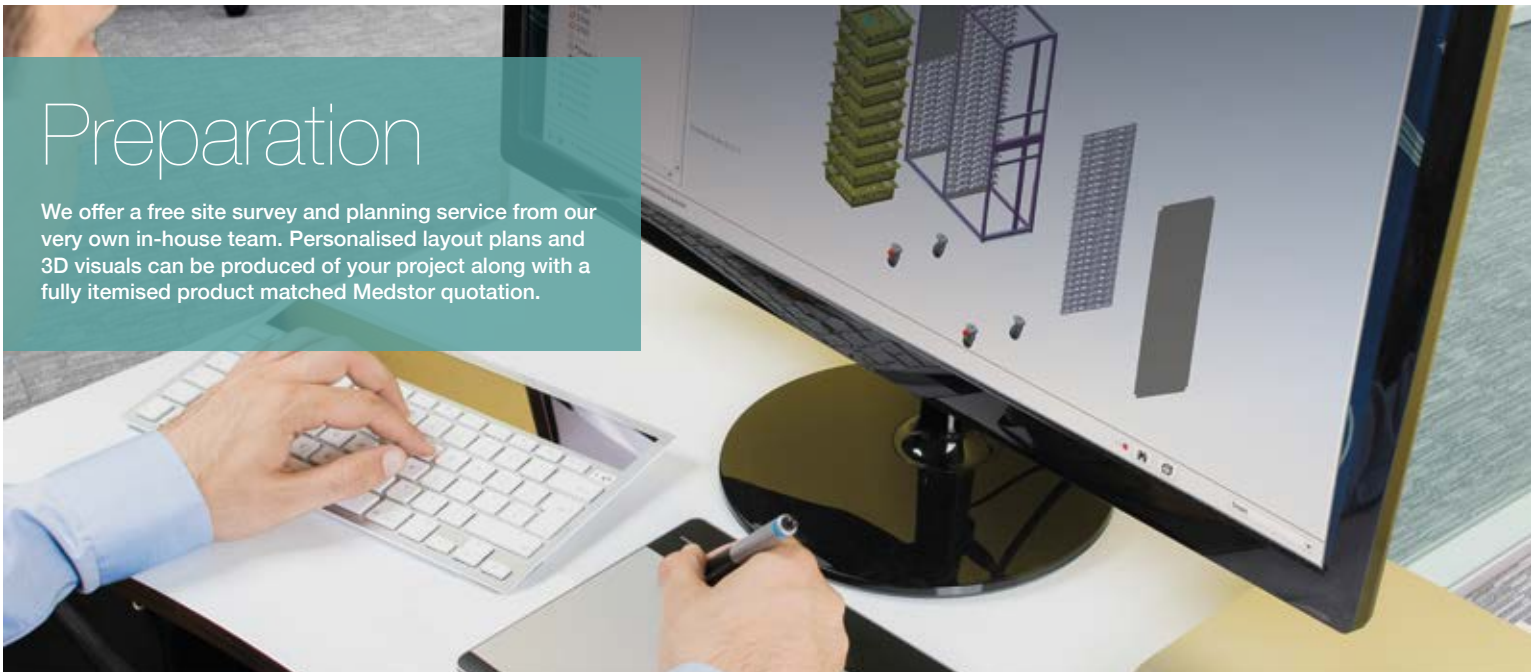

Installation

Our CSCS qualified installation teams will ensure that your products are fitted, cleaned and left ready for use.

STORAGE & PROTECTION
POLYCARBONATE OR ABS TRAYS AND DIVIDERS
BEST IN CLASS

The extremely strong, robust and smooth Medstor trays and dividers are above all designed to protect their contents.

High temperature washing machine compliant materials are used to ensure hygienic surfaces within your environment.

IDEALLY SUITED TO THE RIGOURS OF ANY BUSY HOSPITAL.

CLEAR POLYCARBONATE
15 YEAR PRODUCT GUARANTEE

- Load bearing capacity 35kg
- High impact break resistant
- Suitable to be sanitised at both high and low temperatures
- Conform to international module sizes
- Full integration between trays and dividers
- Solid base options protect from fluid leaks
- Perforated base options improve air flow
- Inbuilt cabinet drawer stops
- Seamless hygienic design
- Nestable same size containers

DESIGNED AND MANUFACTURED IN THE UK BY MEDSTOR
Giving us total system control and product continuity.

POLYCARBONATE TRAYS AVAILABLE IN 3 DEPTHS
50mm, 100mm & 200mm sizes

Temperature range -40°C to +120°C

A: LONG DIVIDERS
Slot into the tray wall to start configuration.

B: SHORT DIVIDERS
Sit into the long divider to create robust secured compartments.

C: SNAPPABLE DIVIDERS
Insert in any orientation to maximise tray configuration, support with T Clip.

D: LABEL HOLDERS
Portrait and landscape fitting see page 25 for all options.

E: T-CLIP
Used with snappable dividers to support open ends. Code F112.

PRACTICAL APPLICATIONS
ORGANISATION - IDENTIFICATION - TRANSPORTATION

Supports multiple level stock control systems, Kanban, FIFO, Scan and Go. See page 146 for additional RFID information.

Organise stock into configured trays to maximise space utilisation and positioned to create a safe storage environment.

Trays are fully compatible with all Medstor cabinets, shelving systems and trolley ranges.

EURO SIZE 600 x 400

Clear polycarbonate makes identifying materials easy, with a user temperature range of -40°C to +120°C machine wash and resistant to standard detergents.

POLYCARBONATE DIVIDERS

Correspond to relevant tray heights.

NEAT AND TIDY
FULLY ADJUSTABLE TRAY COMPARTMENTS

Fully integrated dividers work with all tray types to create individual compartments to ensure product protection and segregation.

Dividers fit lengthways and widthways to accommodate the materials stored.

SHORT DIVIDERS
Further segregation can be made by simply measuring and snapping off sections of the pre-scored dividers to re-configure any disorderly tray areas.

Polycarbonate, ABS and ABS-AS all interwork. Change the layout, configuration in seconds.

NEAT AND TIDY
ABS INSERT TRAYS

- Fit snugly into the Euro size 600 x 400 containers
- High impact resistant
- Aid multiple product picking
- Variable heights

70mm High ABS INSERT TRAY

WHEELED LINER AND ARRESTER SYSTEM **X**TRAGLIDE
SMOOTH EASY GLIDE WITH POSITIVE STOP FUNCTION
HORIZONTAL & 25° ANGLED

Liner and arrester colours are highlighted for illustration purposes: Light Grey and White as standard

STOP

**WHEELED LINER AND
ARRESTER SYSTEM**
With the Xtraglide free running wheel, fully loaded Medstor trays can be removed easily and quietly with the minimum of effort.

HORIZONTAL OR 25° ANGLED TRAYS
Xtraglide arresters can be fitted to the Medstor DUAL FIT liners to withdraw products in a horizontal or angled tray finished position.

POSITIVE STOP
When fully extended the tray is completely secured and product is easily accessible, a simple lift to override the positive arrest give complete tray removal.

Shhh…NOISE REDUCTION
Our new liner with wheeled arresters is so quiet, perfect to use close to any patient area.

VIEW OUR ONLINE DEMONSTRATION MOVIE:
www.medstor.co.uk/differentangles

HORIZONTAL OR ANGLED TRAYS
Medstor liners with Xtraglide arresters tried and tested to hold weights up to 25.5 kg

Fitted on request to all Medstor HTM 71 Cabinets, Module Carts and Procedure Trolleys.

8 (kgf)
6 (kgf)
4 (kgf)
2 (kgf)
0 (kgf)

FORCE (kgf)

● Simple liner
● Glide liner
● Wheeled arrester

WHY USE A WHEEL?
IT REDUCES THE FORCE NEEDED
TO WITHDRAW HEAVY TRAYS...

THE SIMPLE WHEEL DESIGN REDUCES ANY PRESSURE FROM TRAY CONTENTS ONTO THE LINER CREATING A GLIDE EFFECT WITH EACH ROTATION OF THE WHEEL, THIS IN-TURN REDUCES BOTH FRICTION AND ANY NOISE ASSOCIATED WITH TRAY WITHDRAWAL.

TRAY HAND HELD LOADING FORCE TESTS SHOW THE REDUCTION AGAINST STANDARD ARRESTERS AND LINERS.

25° ANGLED ARRESTER:
Gives full access to high level trays

HORIZONTAL ARRESTER:
Gives easy access and stability to lower level trays.

# ERGONOMIC LINER SYSTEM
NO TOOL, PUSH FIT, DUAL FUNCTION ARRESTERS
HORIZONTAL AND 25° ANGLED

Liner and arresters colours are highlighted for illustration purposes: Light Grey and White as standard.

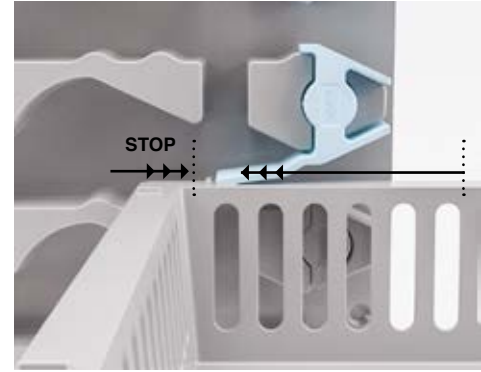

STOP

LINER AND ARRESTER SYSTEM
The original positive stop with tilt arrester can be utilised to angle top trays at 25° for high level stock and to the base for horizontal tray withdrawal.
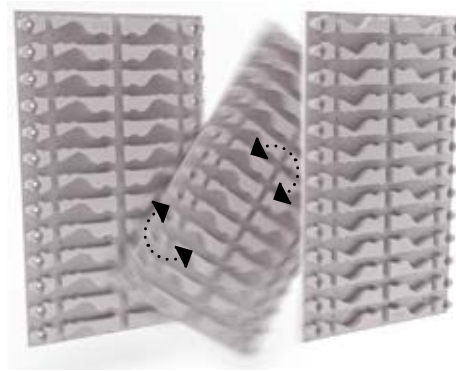

CABINET LINER
Liners are rotated 180° to provide the option of angled or horizontal tray withdrawal in one high impact liner.

POSITIVE STOP
Fully extended trays are fully supported providing access to tray contents.

HORIZONTAL OR 25° ANGLED TRAYS
Medstor liners with push in arresters can support weights of up to 25.5 kgs.

FITTED AS STANDARD TO ALL MEDSTOR HTM 71 CABINETS, MODULE CARTS AND PROCEDURE TROLLEYS

HTM COMPLIANT WORKTOPS
LAMINATE – SOLID SURFACE – SOLID CORE – STAINLESS STEEL

- **Providing clean functional working environments fit for purpose.**
- **Slimline profile to increase system storage capacity.**
- **Worktops can be integrated as part of a fitted system, double post formed with integral 50mm upstand and front bullnosing.**
- **Moisture resistant MDF base as standard.**
- **Chemical resistant – Laboratory surfaces with full test certification.**
- **Available in various colour options with bespoke sizes available on request.**
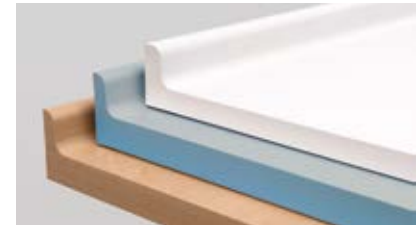

Worktops available with plant on upstands or fully integrated 50mm upstand for an improved hygienic finish.

LAMINATE WORKTOP

Properties
- Versatile, robust and hygienic surface.
- High resistance to external stress (abrasion, impacts and stains).
- Silver ion treated antibacterial Sanitized® grades available.
- Non porous waterproof surface.
- Food safe (IANESCO approved).

Applications
- Suitable for high traffic healthcare environments.
- Covering wall panels as well as horizontal worktops and furniture.
- Can be cold bent or postformed for curved surfaces.

SOLID SURFACE WORKTOPS

Properties
- Easy to clean and maintain. When properly cleaned does not support the growth of bacteria.
- Seam free sink units and jointing.
- Full colour and pigment options.
- Creative finishing available.
- Life time warranty.
- Sold surface worktops can be re-worked again and again.

Applications
- All healthcare environments
- Withstands frequent contact with patient beds, wheelchairs and medical equipment.
- Surfaces resist common stains such as blood, betadine and Gentian's violet.
- Easy to achieve an aesthetically pleasing design that gives patients confidence in cleanliness and attention to their care.
- Vibrant colours to help stimulate early childhood development in neonatal and paediatric areas.

RESIN CORE WORKTOPS

Properties
- Suitable for chemical resistance in healthcare environments.
- Durable solid surfaces are made of all-acrylic material are very durable and long lasting.
- NSF Compliant because of their hygienic qualities. One of the few surfaces certified safe for direct contact with food.
- Counter tops look immaculate, just wipe with a damp cloth or sponge. Food residue can be easily removed with a mild detergent or glass cleaner.

Applications
- Solid surfaces can be custom- fabricated.
- Unlike other surface options, solid surfaces do not need to be replaced if a scratch, chip or crack appears. Scratches can be easily sanded out, leaving the counter top fully restored.

Depths:
Standard post formed HTM 71 worktops are available in 500mm, 600mm, 700mm and 800mm depths.

Thickness:
28mm or 38mm as standard, other sizes available to order: Contact our sales office for more details.

Lengths:
Up to 3000mm available without joints as standard.

ALL WORKTOP SIZES CAN BE CUSTOM PRODUCED TO FIT YOUR EXACT REQUIREMENTS.

HTM 71 COMPLIANT DOORS

MODULAR NURSES STATION
RECEPTION AREA UNITS

DDA Compliant modular units, installed ready for immediate use.

- Easy clean hygienic laminated MDF panels and worktops certified to FSC standards.
- Robust and stylish units provide functional work surfaces.
- Reconfigurable units give infinite footprint possibilities.
- Suitable for the healthcare sector and public areas.
- Designed and manufactured in the U.K.

CABLE MANAGEMENT
Includes 2 port outlets.

2 HEIGHT OPTIONS
Normal desk height and riser unit for privacy.

COUNTER TOPS
Fixed or floating in a choice of material finishes.

FIXED OR FLOATING COUNTER TOPS
Toughened, clear and frosted glass or coloured acrylic finish surfaces.

MEDSTOR TRAYS AND DIVIDERS
Manufactured by Medstor in the UK our trays and dividers are focused on content protection. Clear polycarbonate and ABS available.

INTEGRAL CHANNEL
For power and data management

KICK PLATE
laminated waterproof construction board.

CONSTRUCTION
Laminated MDF 18mm panels in a selection of colours.

CORNER STORAGE UNITS
Can be adapted to house the Medstor liner and tray system.

PERSONALISATION
Panels can be personalised with organisation logos, direction information and LED lighting.

SAMPLE CONFIGURATIONS

 As each project has individual requirements and specifications:
 Please contact Medstor for a free site survey - See example configurations below:

BESPOKE LAYOUT ?
We help develop your big or small project.

EXAMPLE 1

· **S-shape using 4 x corner units**

EXAMPLE 2

· **1 x DDA desk unit**
· **2 x Storage units**
· **2 x Desk units with riser for privacy**
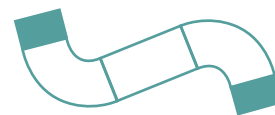

EXAMPLE 3

· **1 x Riser unit**
· **2 x Storage units with liners**
· **2 x Corner units**
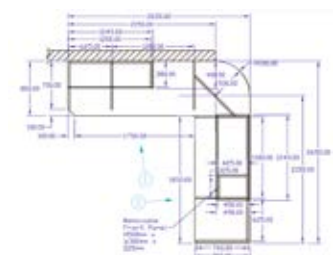

STOCK CONTROL AREAS
EFFICIENT STORAGE - MAXIMISING YOUR SPACE
SCALABLE IN SIZE

Flexible systems suitable for small local storage areas to large open plan central stores.

Capable of handling all different sizes of materials and stock level demands with the flexibility to adapt over time.

FREE DESIGN AND CONSULTATION SERVICE AVAILABLE
To help develop your project big or small, our talented in-house space planners produce 2D and 3D visuals of the required project.
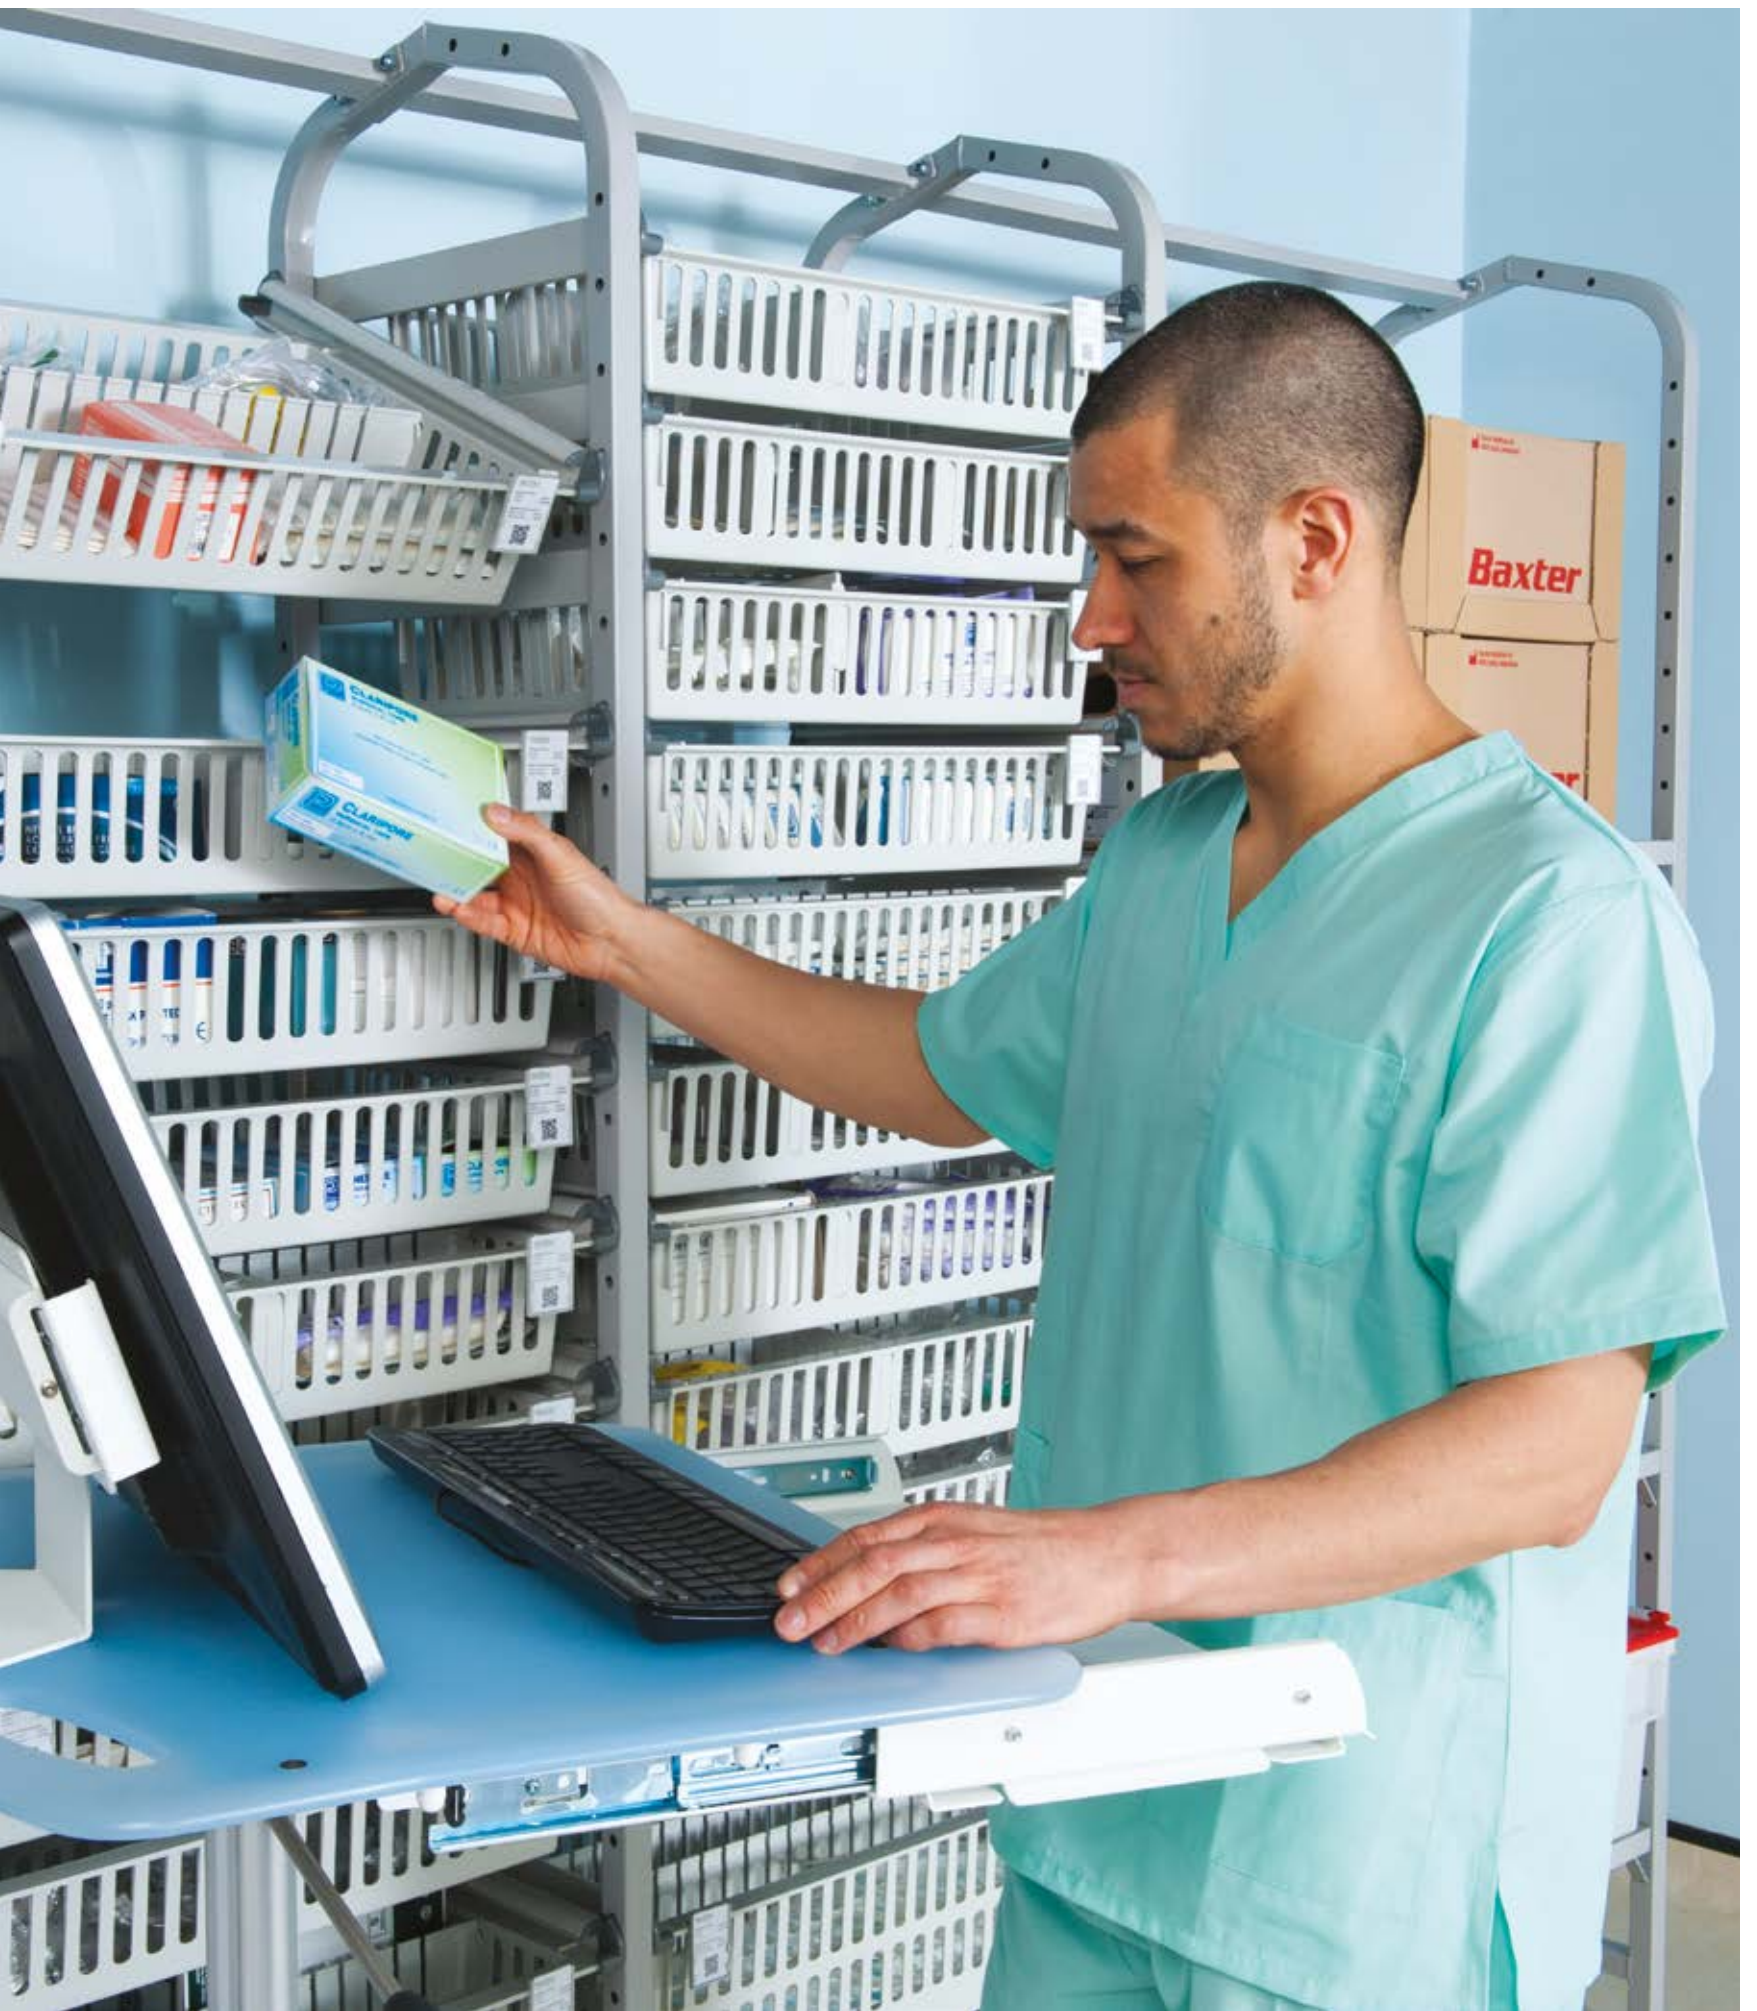

LONG SPAN SHELVING
FOOTPRINTS FOR ALL ROOM SIZES

- **Static or mobile storage system.**
- **Infection control - simple to clean smooth surfaces.**
- **467mm or 667mm deep units.**

STARTER KIT END FRAME
467mm deep or 667mm deep mobile or static option.

LONG SPAN BAY KIT
Includes end post with built in horizontal connectors.
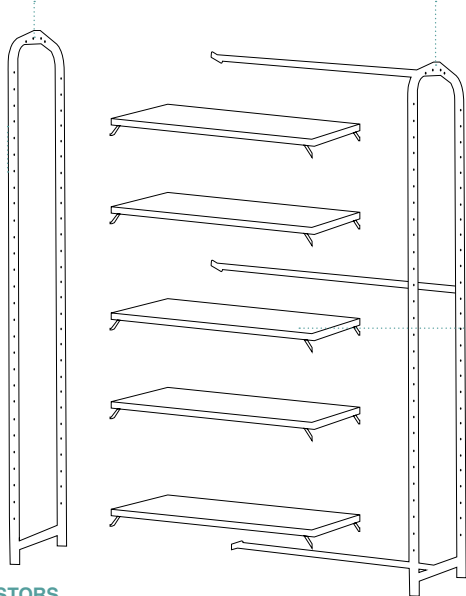

LONG SPAN SHELF KIT
Contains 1 shelf with 4 adjustable support brackets. Perforated or solid front.

CASTORS
Can be fitted to units to make a fully mobile unit.

COST EFFECTIVE STANDARD HTM 71 SOLUTION
Bulk storage system produced in the UK by Medstor, giving you full product continuity.

TOOL FREE INSTALLATION
Constructed from 30mm box section tubes with adjustable feet for uneven floor surfaces.

250Kg WORKLOAD PER SHELF
Easily adjusted shelves utilise fitted corner brackets located in the pre drilled end posts providing bolt free adjustment.

PRODUCT CONTROL SHELF OPTIONS
Perforated front shelving ready to incorporate our materials management labelling system, alternatively a solid front kit as standard.

WORKING TOGETHER
Long span shelving works seamlessly with High density shelving system.

HOW TO SPECIFY

- **Each run/section requires a 467mm or 667mm deep starter kit / end frame.**
- **Add shelf numbers with Long span shelf kit bay.**
- **Finish with a Long span end bay to create the correct amount of storage.**

FREE PLANNING SERVICE
To help develop your big or small project.

PROJECT ENVIRONMENTS

HOSPITAL C.S.S.D DEPARTMENT:
Large centrally located hospital store area
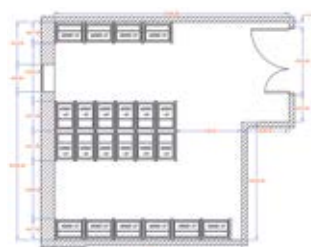

EQUIPMENT STORE:
26 bay layout with back to back aisle
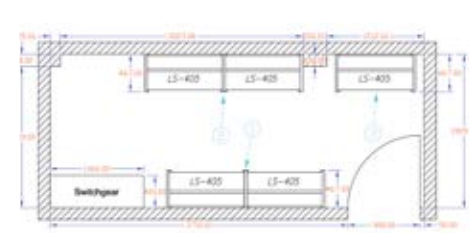

PHARMACY STORE:
5 bay room installation

Multi-purpose storage that adapts to your storage area requirements.

WORKING WITH STOCK LEVELS:
Clear card labelling shelf system incorporated into shelf kit design.

HTM 71 HIGH DENSITY SHELVING
SPECIFICALLY DESIGNED TO PROVIDE CLEAN SURFACES

- **High density is both a free standing or mobile storage system.**
- **Infection control - simple to clean smooth surfaces.**
- **467mm or 667mm deep units.**

Space saving simple alternative
to large storage cabinet.

STARTER KIT END FRAME
467mm deep or 667mm deep
Mobile or static option
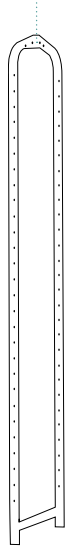

RUNNER KITS
Telescopic
Horizontal
Angled

TRAY SELECTION
Choice of sizes, materials, dividers and labels
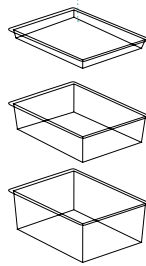

HIGH DENSITY BAY KIT
Includes end post with built-in horizontal connectors

TELESCOPIC RUNNER
Stainless steel ball bearing runners for smooth full withdrawal of Medstor trays. Soft closure with anti-tilt technology protects container contents and ensures user safety.

24° ANGLED RUNNER
Holds the tray securely in the closed position ready for withdrawal.

HORIZONTAL RUNNERS
Positive arrester system to ensure non accidental removal of baskets.

STOCK CONTROL
Post fitting stock identification card holder.
Code F302

WORKING TOGETHER
High density shelving works seamlessly with Long span shelving.

HOW TO SPECIFY

- **Each run/section requires a 467mm or 667mm deep starter kit / end frame.**
- **Add Tray runner kit (each kit contains 2 runners to support 1 tray).**
- **Finish with a high density bay kit to create the correct amount of storage.**

FREE PLANNING SERVICE

TOPTRACK HIGH DENSITY
ACTIVE AISLE MOBILE STORAGE SYSTEM

- **Overhead Track System.**
- **Maximise storage within limited floor space areas.**
- **Ideal for frequently cleaned floor areas.**
- **408kg evenly distributed capacity per mobile unit.**

WHY USE ACTIVE AISLES?
Toptrack enables more storage to fit within limited floor space.

EXAMPLE TRADITIONAL STORAGE
Using up to 6m of space.

SPACE SAVING
Up to 50% extra with top track

Please ensure you allow for a minimum 762mm active aisle within track length for unit access to mobile units.

OVERHEAD ALUMINIUM TRACK
Fits between stationary end units creating stability and easy movement of mobile units

EASY TO MANOEUVRE
Rigid channels and large wheel design helps mobile units to be moved easily

TRACK SIZE OPTIONS
Designed to maximise all available storage space.
Please request our free planning service.

SHELF OPTIONS
Metromax Q Open Grid Polymer Shelving System supplied as standard .
Metromax I Open Grid/Solid Polymer Shelving and Chrome Wire System available on request.

TOPTRACK High Density Storage is configured by specifying 4 components

- **457mm or 610mm deep static end kits**
- **457mm or 610mm deep mobile unit kits**
- **Desired shelf size**

- **Desired Track Length (Please ensure you allow for a minimum 762mm active aisle within track length for access to mobile units)**

STATIONARY END UNIT KITS

457mm width	610mm width
Q70180000	Q70240000

Includes:
Stationary post and hardware to connect track sets together
One static section kit per full layout is required. Overall unit height 2195mm.

MOBILE UNIT KITS

457mm width	610mm width
Q70180001	Q70240001

Includes:
Mobile posts, castors, castor channels, bumpers and roller assemblies.

457mm WIDTH BAY UNIT - SHELF LENGTH

910mm	1220mm	1525mm	1829mm
Q18360000	Q18480000	Q18600000	Q18720000

Metromax Q polymer grid mat shelves supplied as standard
Please specify number of shelves at point of order – min 4 recommended per stationary and mobile kit for stability.

610mm WIDTH BAY UNIT - SHELF LENGTH

PROTECTIVE FLOOR PADS

ACCESSORIES
Floor pad protectors compensate for soft flooring materials by protecting the floor from wear and tear.
Please specify floor pad length in conjunction with track length at point or order.
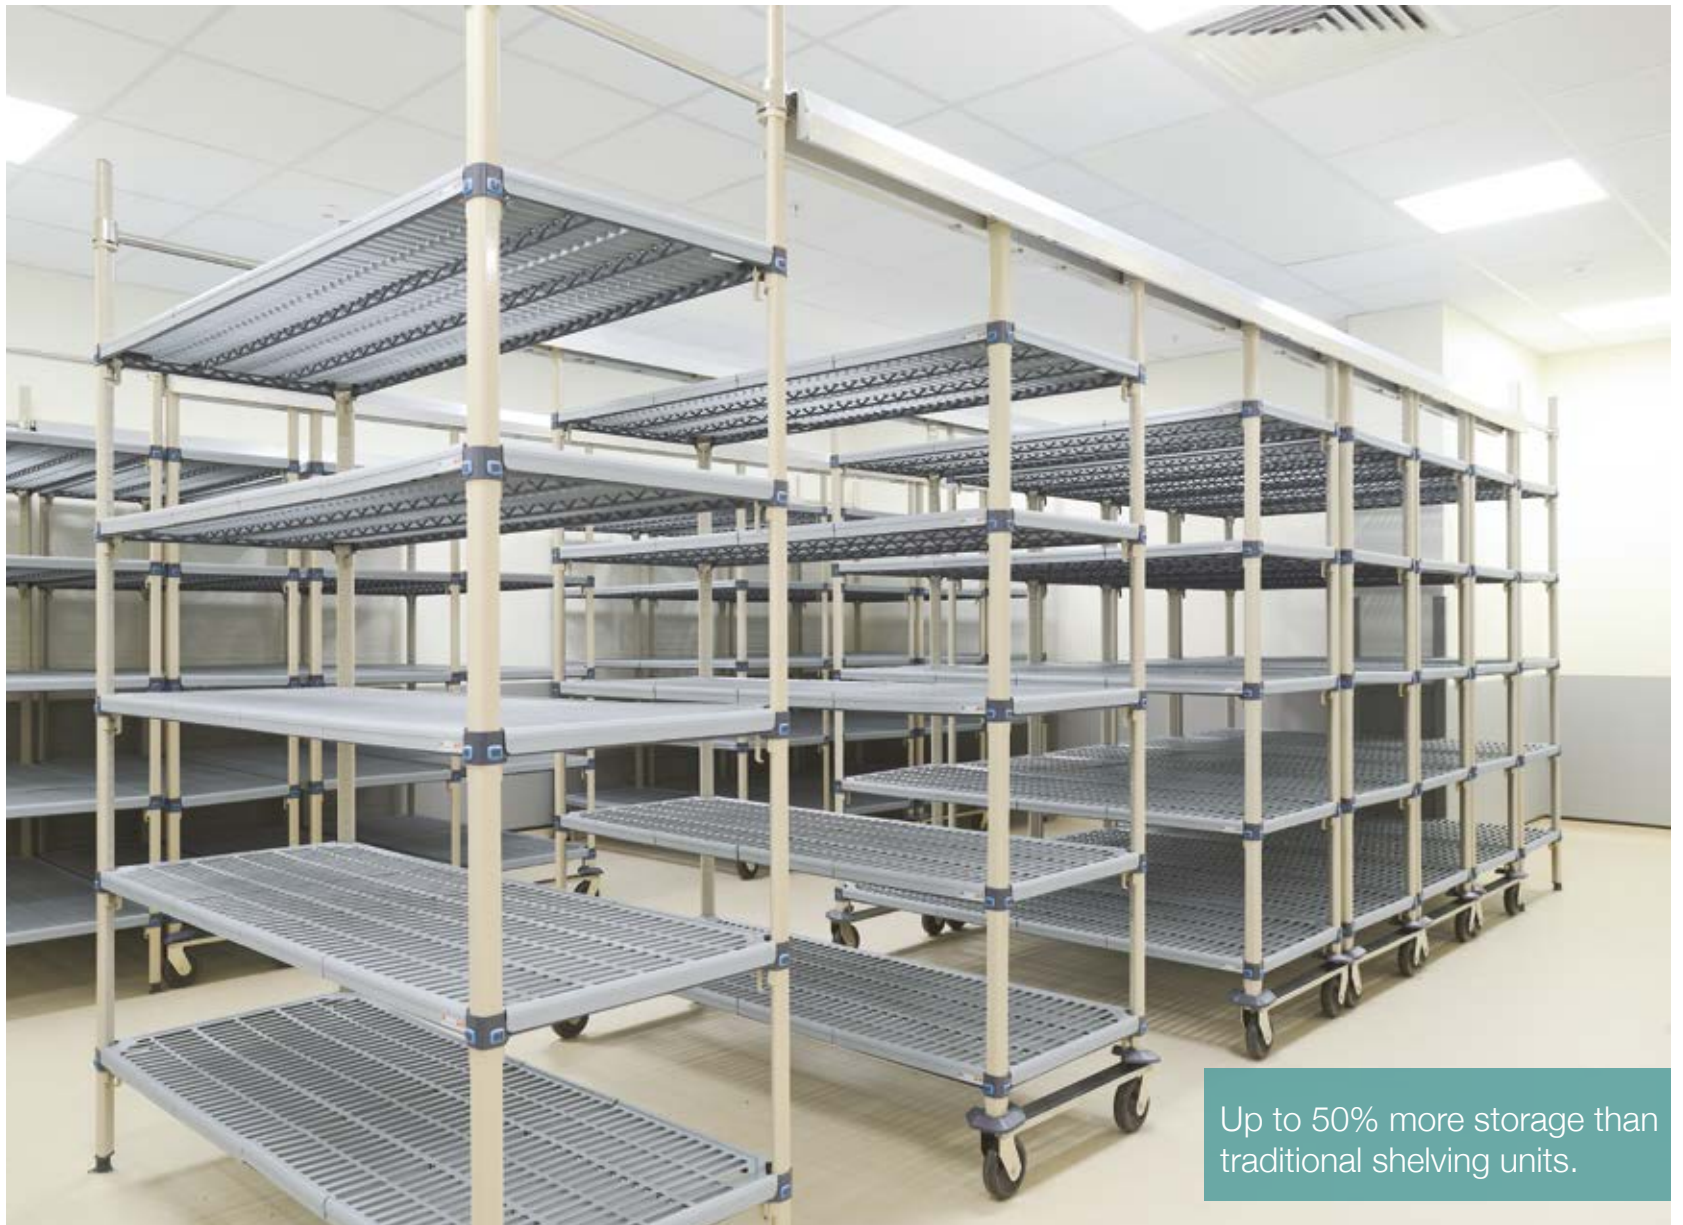

Up to 50% more storage than traditional shelving units.

MEDSTOR CASE STUDY IMAGES
Taken from a finished storage project installation for the NHS.

qwikTRAK HIGH DENSITY
ACTIVE AISLE MOBILE STORAGE SYSTEM

- **Floor Track System.**
- **Maximise storage within limited floor space areas.**
- **Ideal for heavy duty applications.**
- **907kg evenly distributed capacity per mobile unit.**

WHY USE ACTIVE AISLES?
qwikTRAK enables more storage to fit within limited floor space.

EXAMPLE TRADITIONAL STORAGE
Using up to 6m of space.

SPACE SAVING

Up to 50% extra with top track

Please ensure you allow for a minimum 762mm active aisle within track length for unit access to mobile units.

FLOOR MOUNTED TRACK SYSTEM
Floor tracks provide a smooth, level surface to guide the mobile units in a straight line.

EASY TO MANOEUVRE
V Groove castor design helps mobile units roll easily along the track even with heavy loads.

TRACK SIZE OPTIONS
Designed to maximise all available storage space options.
Please request our free planning service.

SHELF OPTIONS
Metromax Q Open Grid Polymer Shelving System supplied as standard
Metromax I Open Grid/Solid Polymer Shelving and Chrome Wire System available on request.

Metromax Q
STORAGE SOLUTION

Microban antimicrobial product protection

The unique corner release allows shelves to be repositioned in seconds. Smooth, easy to clean surfaces and epoxy coated components, with Microban antimicrobial product protection provide superior performance and an excellent return on investment.

- Quick to adjust shelves provide maximum usage of space.
- Quick to assemble – patented corner release system.
- 15 year warranty against corrosion.

- Smooth polymer mats protect stored items and remove easily for cleaning.
- Can be integrated with Metromax I Shelving.

Integration with Metromax I solid mat

Metromax Q High Density Storage is configured by using 2 components
1585mm H or 1895mm High Posts and your desired shelf size. Use mobile posts with castors for mobile applications

Metromax I
LIFETIME STORAGE SOLUTION

Microban®
antimicrobial product protection

The innovative design all polymer post and shelf system is completely corrosion proof. Smooth, easy to clean surfaces promote a cleaner environment and Microban antimicrobial product protection provide an unrivalled future proof performance.

- Easy to adjust shelves provide maximum usage of space.
- Easy to assemble, patented wedge corner system.
- Lifetime warranty against corrosion.
- Available in grid and solid mat options.

- Smooth polymer grid mats remove easily for cleaning.
- Smooth solid mats are ideal for sterile packs.
- Can be integrated with Metromax Q Shelving.

Grid mat

Solid mat

Metromax I Shelving is configured by using 2 components

ADDITIONAL SHELVES   **CASTORS**

STERILE SERVICES
O.R. - CSSD - STORAGE - SPECIALIST CARTS
TWO TOUCH SYSTEM

From sterile services to operating theatres, procedure packs are only touched twice to help maintain sterility and greatly reducing infection risk.

ALL STERILISATION EQUIPMENT IS TESTED FOR AUTOCLAVE PRESSURE CHAMBER USE.
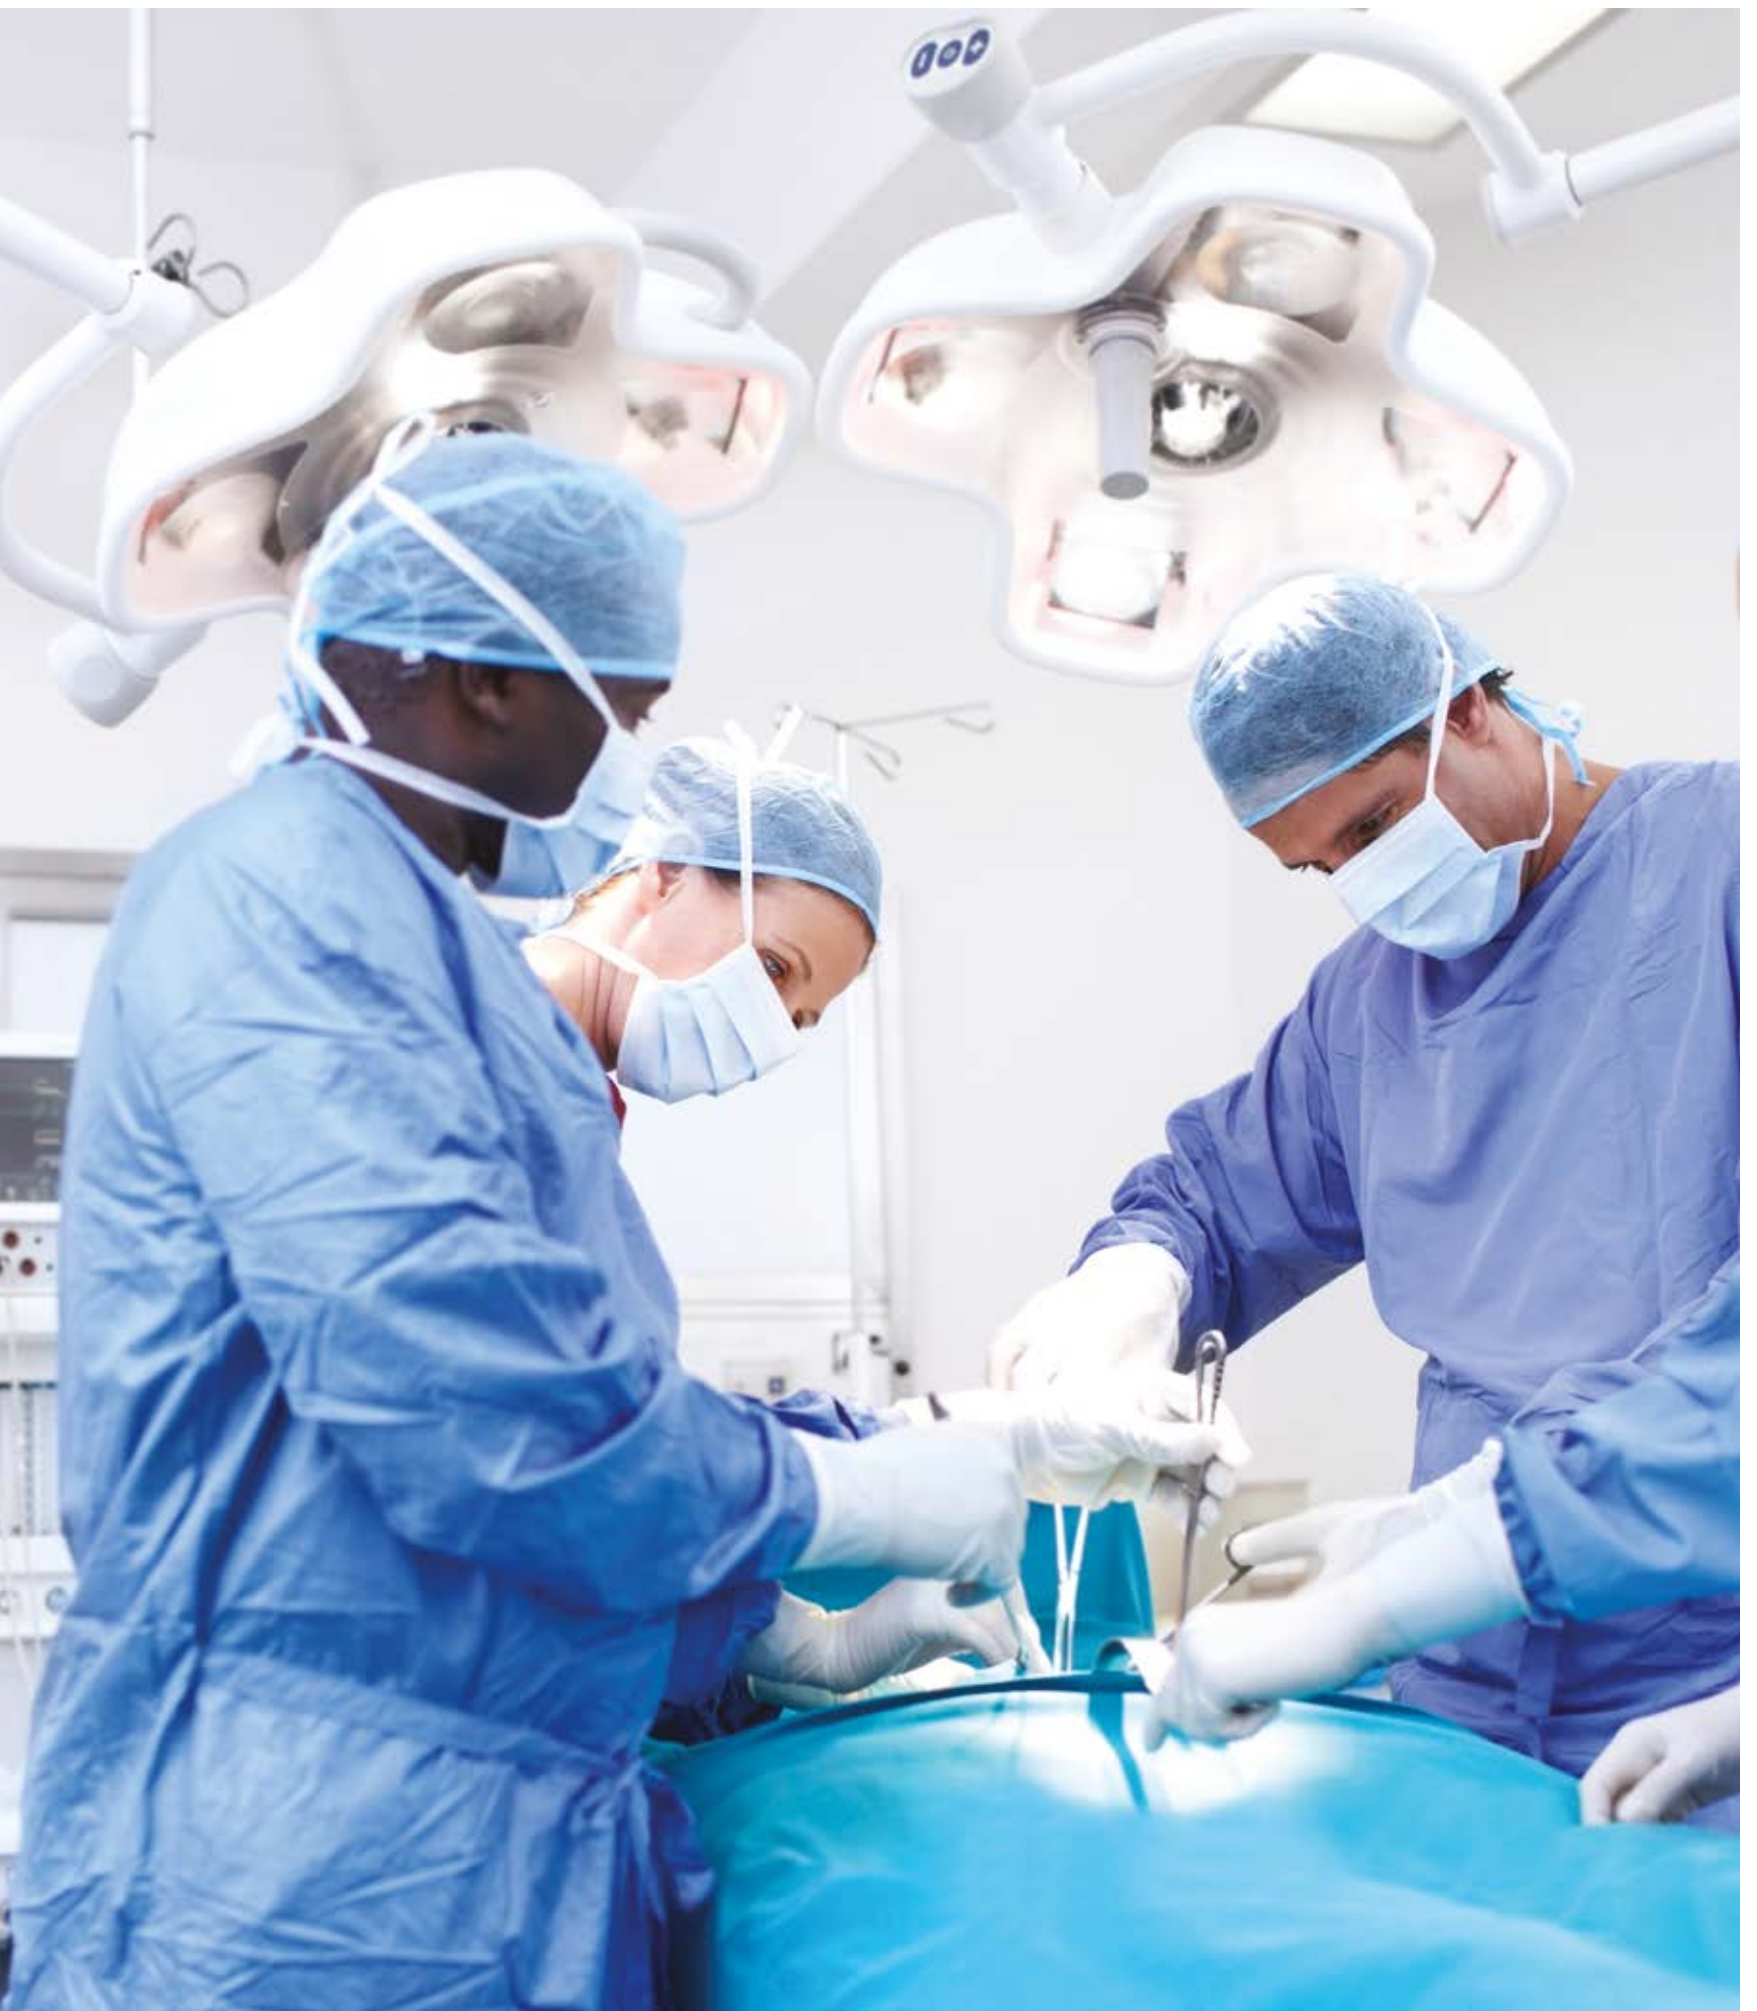

INSTRUMENT BASKETS
POLISHED AISI 304 GRADE STAINLESS STEEL

Our instrument baskets come with a perfectly finished top wire which reduces the chance of perforations to a minimum and a lifetime guarantee.
All pictures ©Belintra NV

- Manufactured from highly polished AISI 304 grade stainless steel.
- Continuous quality control throughout the whole production process, guarantees quality and dimensional stability.
- Lifetime guarantee on all instrument baskets.
- Instruments stay firmly in place.
- Designed to prevent perforations in packaging.
- Optimises the full sterilisation process.
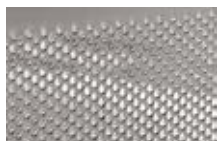

PUNCH PATTERN
2mm holes guarantee a permeability of over 50%, benefiting the full washing process. Steam and water penetrate during sterilisation and washing. Protective sides guard instruments against damage designed to accommodate ultra fine instruments.
BASE
Smooth, dry base completely traps any moisture that may stick to the packaging. This ensures that moisture cannot heat up or evaporate under the influence of radiation, convection or conduction.

QUALITY CONTROL TOOL
For quality-assurance purposes, all our baskets are put through a special quality control tool.
To make sure that the mesh is uniform in size, the base of every basket is meticulously checked.
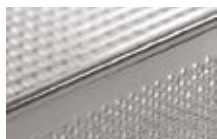

TOP WIRE
Upper wire is made from plasma welded on to the sides of the basket. This results in a beautifully finished product that is devoid of any sharp edges reducing the risk of perforations during unpacking.

UNIVERSAL SIZES
DIN and Euro instrument baskets come in universal sizes and fit perfectly into the wire baskets. Instrument baskets are fitted with 2 handles with a load-bearing capacity of 15 kg.

MATERIAL
Instrument baskets are manufactured from AISI 304 L grade stainless steel and come with an electrolytically polished finish.

SHAPE
Manufactured so that you will never have to worry about holes or cavities that could harbour bacteria.

BAR CODE ZONE
For identification and traceability purposes, the instrument baskets are fitted with a bar code zone.

From Sterile Services to Operating Theatre procedure packs are only touched twice enhancing sterility of the pack and greatly reducing Infection risk.

Trolleys and carts are widely used in the transportation of instrument baskets.

Maintaining the highest standards of hygiene across all areas of the sterile services.

WIRE BASKETS
HIGHLY POLISHED STAINLESS STEEL

Wire baskets are invaluable if you want to ensure that
your sterile sets of instruments are stored safely.
All pictures ©Belintra NV

- Steel wire basket, in both Euronorm and DIN sizes.
- Safe and hygienic means to transport and store sterile packs.
- Invaluable storage tool in your instrument set sterilisation process.
- Wire baskets can be used in all our CSSD trolleys and storage systems.

STACKABLE
Without the addition of extra handles, the baskets
are stackable, user-friendly and safer for hygiene
purposes, the upper edge features a single wire only.

OUTSTANDING QUALITY
Baskets have been manufactured in accordance
with the most stringent standards. Our baskets are
devoid of any sharp edges or welding burrs which
could cause tears in packaging.
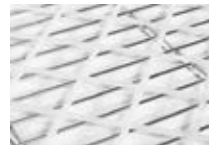

SAFETY
As the wrapped instrument tray is stored in a wire
basket direct contact with the sterile set is avoided.

SILICONE PAD
Used with wire baskets and wire shelves.

STERILE CONTAINERS UN 3291 APPROVED

MOBILE CUPBOARD TRUCKS

- Meet the hygiene requirements for sterile transportation.
- Transported goods are perfectly protected.
- Isolation doors suitable for DIN/ISO trays.
- Anodised light alloy body with stainless steel supporting shelves.
- All cupboards are designed for disinfection tunnel use.

ALL MEDSTOR PRODUCTS CARRY A MINIMUM 5 YEAR GUARANTEE

STERILE CONTAINERS
All cupboard trucks are designed for washing and disinfection in tunnels.

DOOR DETAIL
Both the central joints of the door and four corners ensure a tight seal around the cupboard contents.

POSITIVE ARRESTERS
Stop system for preventing accidental container withdrawal.

TELESCOPIC SHELF
Stainless steel shelf extends out to give easy access to bin handling.

INSTRUMENT CARTS
MOBILE STAINLESS STEEL UNITS

- Anti-torsion base chassis with stainless steel tubes.
- 160mm fixed, swivel and locking castors with brakes.
- Pyramid roof to facilitate water drainage.
- Doors can be locked in opening position 270° and 255°.

ALL MEDSTOR PRODUCTS CARRY A MINIMUM 5 YEAR GUARANTEE

A: SECURITY
Device seal system.

B: LOCK
Locking bar and closing handle.

C: DIRECTIONAL LOCK
Which enables the control of each individual wheel to be manoeuvred.

D: CENTRAL BRAKE
Stops all trolley motion - Foot operated.

E: DRAWER BAR
Assists to direct the trolley safely.

F: CARD HOLDER
A4 sized - clear and simple labelling.

INTERNAL FRAMES
Fit inside the cabinet and lock into place.

PRACTICAL APPLICATION
STERILE MATERIALS HANDLING

STAINLESS STEEL BASE
Extremely strong frame - TIG process, external edge with smoke grey PEHD.

EASY TO MANOEUVRE
2 fixed & 2 swivel 160mm non marking rubber castors with brakes.

DOOR OPENING
The doors can be locked open at 270° to allow cleaning of the internal surfaces.

TRAY TRANSPORTATION
Simple to remove internal frames.

TECHNOLOGY

RFID SYSTEM - MOBILE I.T. UNITS - SECURITY SYSTEMS

IMPROVE WORK FLOW

We offer a large number of technology solutions for different areas of the healthcare sector, helping to improve efficiency by speeding up processes in the workplace and decreasing costs.

Mobility is a key benefit recognised by our new offering of mobile computer units along with our tried and tested Smartkanban materials management options.

SLIMLINE SYSTEM
Actuator handle, allows for effortless adjustments, optimising workflow efficiencies while sitting or standing.

SIMPLE INSTALLATION
Pre-assembled resulting in minimal installation down time. Maximum load 18kg.

VERSATILE SYSTEM
Superior overall height adjustment range compared to other workstations maximises versatility, ergonomics and comfort.

BUILT FOR LIFE
Maximum durability leads to long term dependability. Intelligently designed around your technology requirements.

AVAILABLE IN A VARIETY OF OPTIONS WHICH ARE ALL DESIGNED TO STORE...

MetroMount™ wall arm systems keep information and patient data available at the point-of-care. These durable wall arms and mounts install in minutes and offer access to information from a patient room or hallway.

Designed to be store compactly and out of the way to maximise space. The wall arm systems are easily adjustable with a single-handed motion to allow nurses to work comfortably.

Monitor and accessories not included.
All walls must be fully evaluated before installation.

ILOQS10 - DIGITAL LOCKING
ELECTRONIC KEY LOCKING SYSTEM

iLOQ Self-powered Digital Lock Cylinder

iLOQ C10S.50 Furniture lock

COMPLETE LOCKING SYSTEM

iLOQ S10 locking system offers a modern Internet based solution for secure and advanced administration of locks and keys.

AWARD-WINNING SOLUTION

The iLOQ locking solution has won several awards in the security industry.
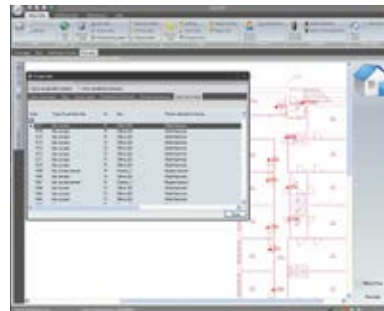

DEVELOPED FOR HIGH SECURITY

Easy-to-use software provides access rights and locking management tools for each key and lock.

NO BATTERIES

Electronically keyed iLOQ S10 locking system is uniquely self-powered by harvesting electricity from the insertion of the key.
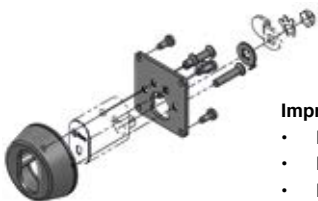

Improve locking security
- Patented self-powered electromechanical lock cylinder
- Battery free key with encrypted digital identification
- Powerful encryption and security features
- Easy and fast elimination of lost keys

Remove keying restrictions
- Fully programmable locks and keys
- Proven communication and software
- Easy to use user interface

Save time, money and the environment
- Easy and fast installation and maintenance
- No cables or batteries needed
- Cost efficient operative function
- Minimises lost key costs
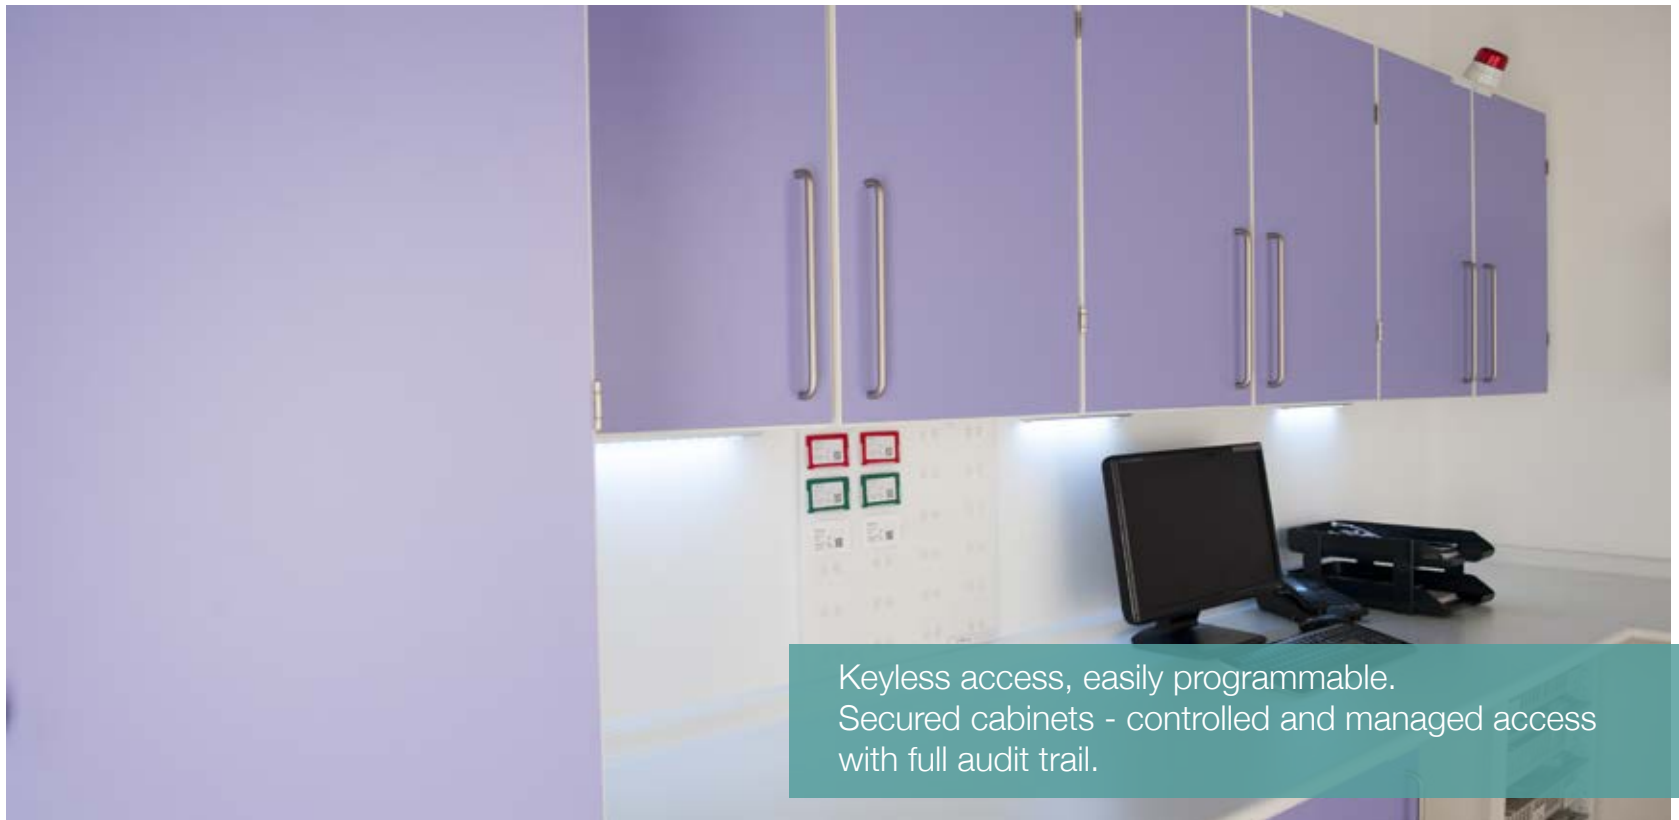

Keyless access, easily programmable.
Secured cabinets - controlled and managed access with full audit trail.

PROXIMITY LOCKING
TRANSPONDER TECHNOLOGY FOR CABINETS AND CARTS

COMPLETE LOCKING SYSTEM
Electronic circuit is activated by pressing the button with an electronic key
Stores last 150 transactions.

LED shows programming and lock status
Integrated real-time clock to programme time-limited locking authorisations
Serial interface for the communication with portable programming devices.

INFORMATION TERMINAL SET
Indicates which proximity lock number key is authorised. Neutralises keys Macro capable; a macro provides customised extension of functions.

- With 4-line LC display (16 characters each), 2 function keys
- Integrated infrared interface
- Supply voltage: 8-9 V AC or 10-12 V DC
- Continuous current consumption: 200mA
- Temperature of operating area: 0-60ºC (non condensing)
- IP 65 rated

DIALOCK KEY WITH WRISTBAND
- 41 x 34 x 4.5 mm (excluding wristband)
- User key - 1 locking authorisation per key
- Polyamide, black with white insert

S4 KEY TAG
- Dimensions: (H x W x D) 43 x 34 x 5 mm
- For attaching to key ring
- User key - 4 locking authorisations per key tag.

(MAX 4KG PER STAND).

ANGLE TILT TESTED

REF	Description
A	Test 1 stability test to BS 3619:1976 with single infusion 1000ml dispenser 9° permissible angle achieved.
B	Test 2 with Flo-gard pump at 0.8m height and infusion dispenser at 1.9m 11° permissible angle achieved.
C	Test 3 with Flo-gard pump at 1.0m height and infusion dispenser at 1.9m 9° permissible angle achieved.
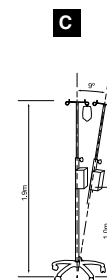

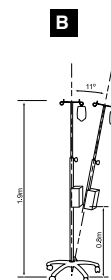

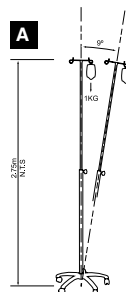

TWO HOOK I.V. POLE/DRIP STAND 200 - 1200mm

Code	Description
MS3302	Two hook stand
MS3302-WB	Two hook stand with weighted base pole

FOUR HOOK I.V. POLE/DRIP STAND 200 - 1200mm

Code	Description
MS3304	Four hook stand
MS3304-WB	Four hook stand with weighted base pole

Weighted base pole

The image shows a full-page photograph of medical personnel in green surgical gowns. In the foreground is a yellow container labeled "CLINICAL WASTE ONLY".
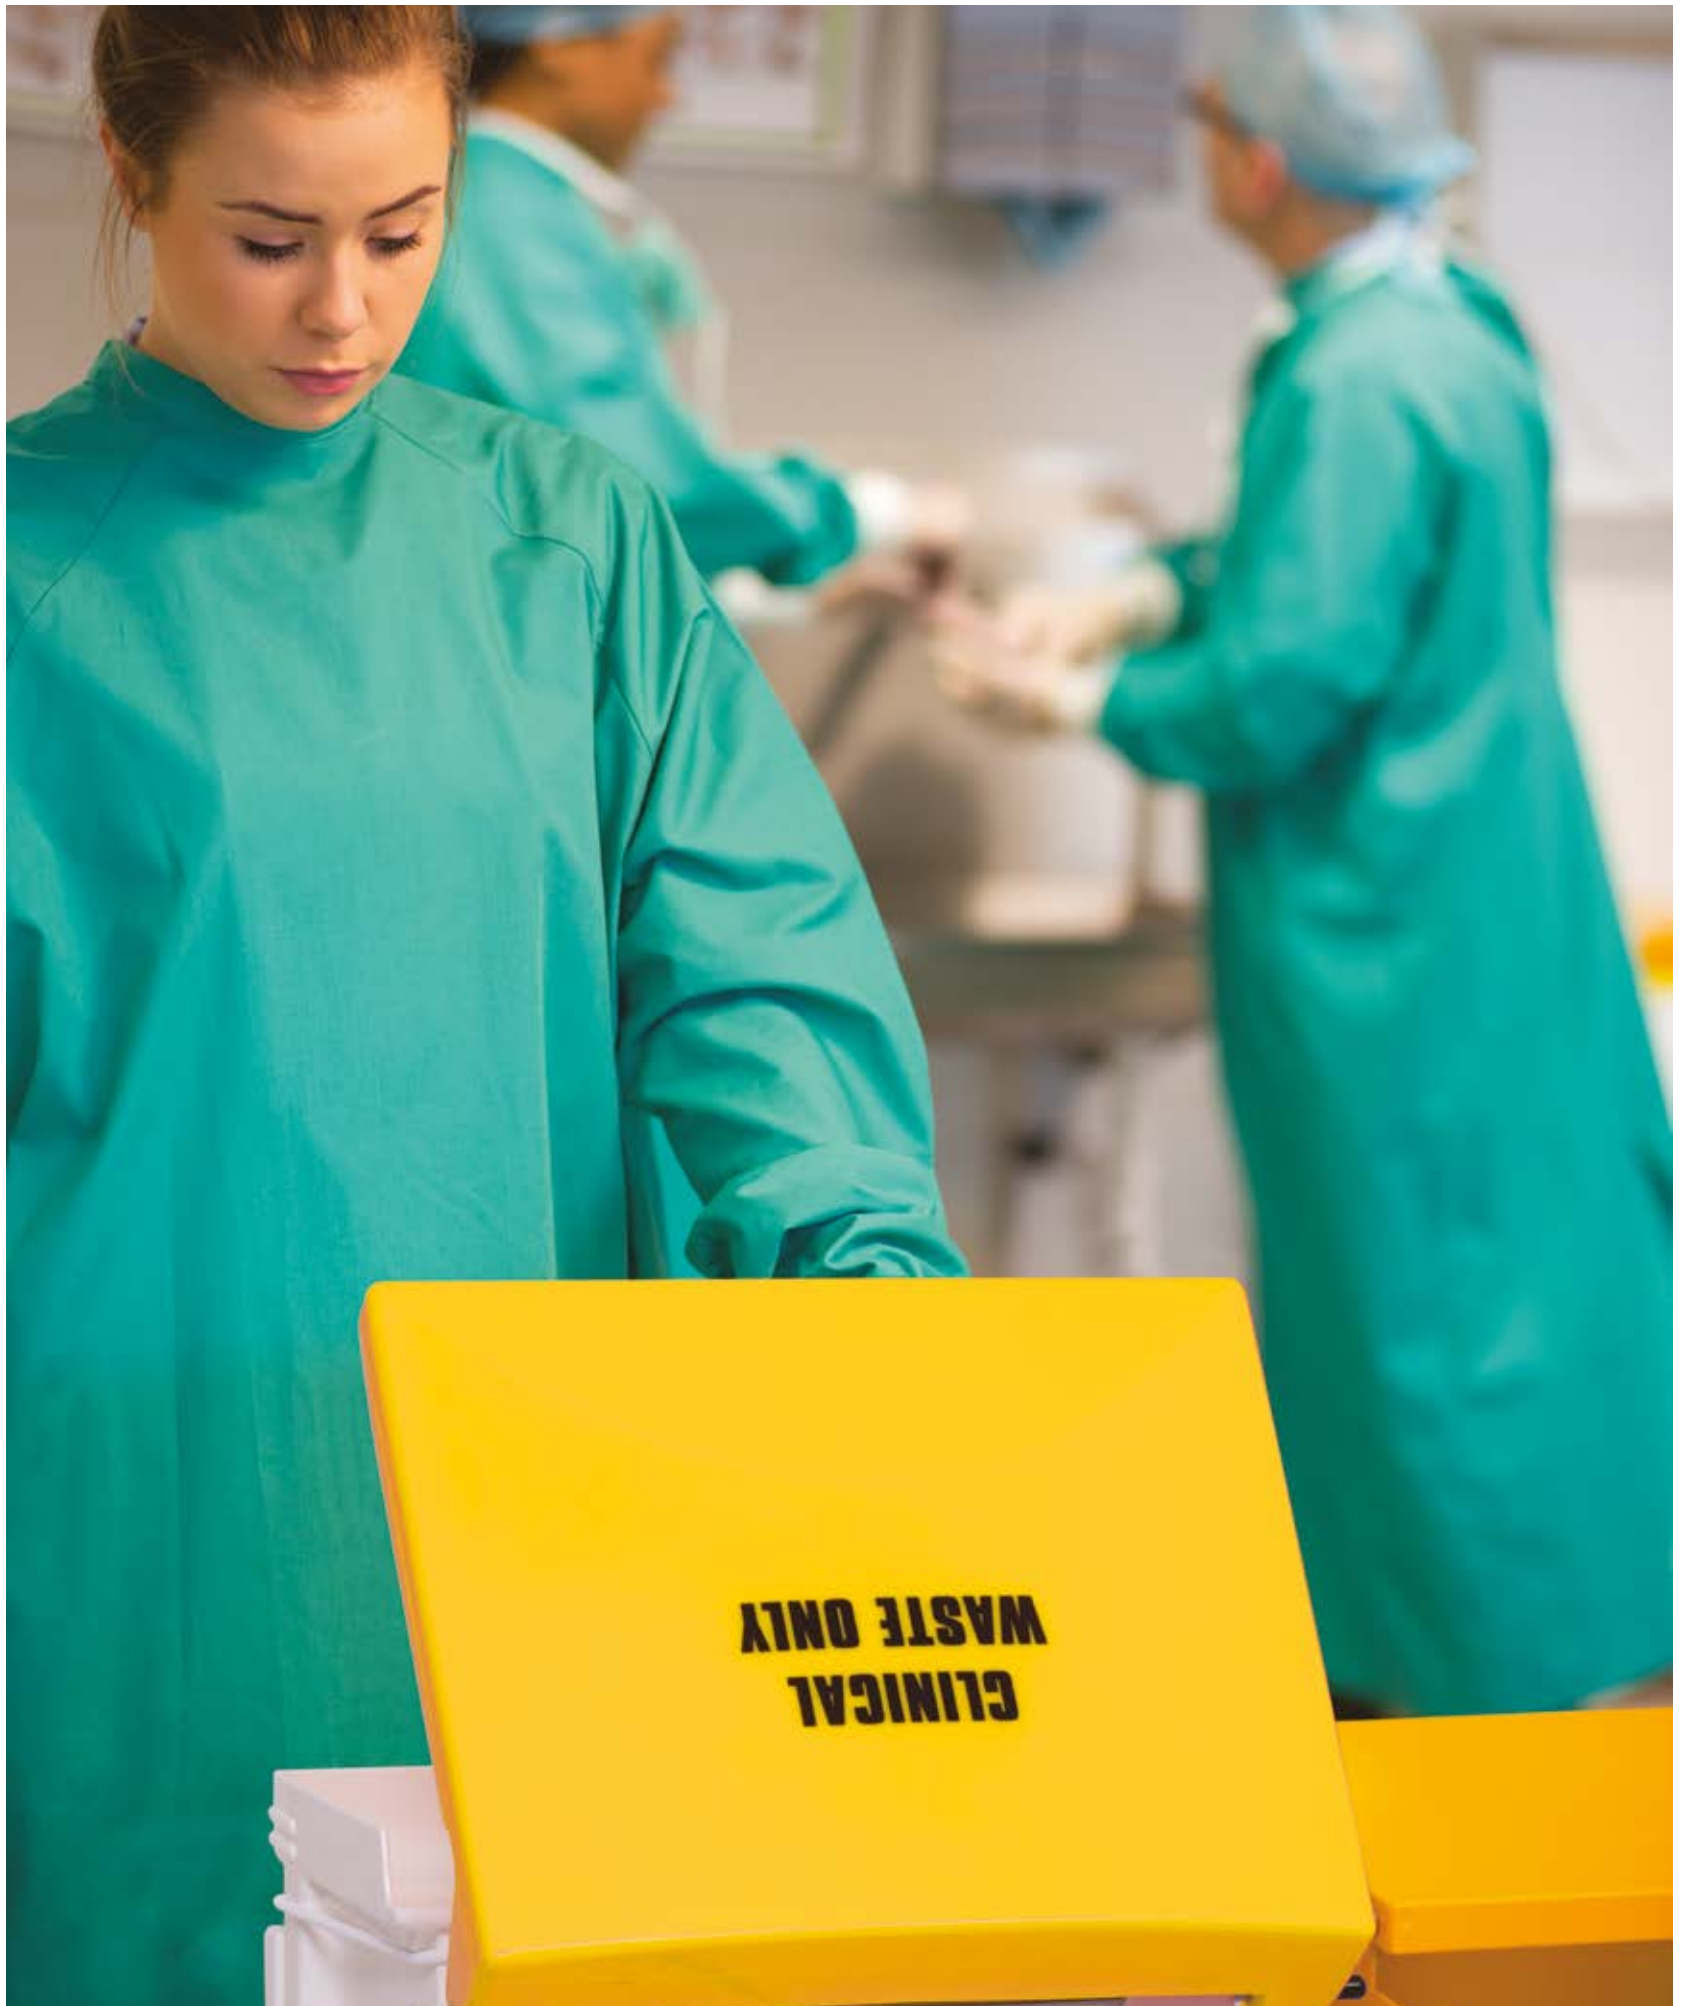

REFUSE AND RECYCLING
SOFT CLOSING LID PEDAL OPERATED

MANUFACTURED FROM HIGH DENSITY POLYETHYLENE
TESTED TO NHS TECHNICAL MEMORANDUM 83 (FIRE SAFETY)
ALL UNITS FITTED WITH BAG CORD
STAINLESS STEEL PUSH ROD

Moulded-in personalised graphics available for additional cost.

FIRE RETARDANT SACK HOLDER

Code	W (mm)	D (mm)	H (mm)	Description
MT0036200	620	x 240	x 405	Fixed sack holder
MT003765B	810	x 400	x 480	Mobile sack holder

Lid does not touch the wall when opening.

Pedal operated

Silent closing lid option

CONTAINER MATERIALS
CONVERSION FORMULAE

	TEMPERATURE RANGE	CHEMICAL RESISTANCE	MOISTURE RESISTANCE
ABS Acrylonitrile - Butadiene - Styrene. Thermoplastic. Very rigid and strong with good impact strength.	-20°C to +60°C	Inert to many Chemicals	Very Good
PC - POLYCARBONATE Thermoplastic. Very rigid and strong with good impact resistance. Transparent options available. Well suited to higher temperatures.	-40°C to +120°C	Inert to many Chemicals	Good
LDPE - POLYETHYLENE Low Density - Thermoplastic. Tough, light and resilient with good impact strength and recovery from distortion. Available in several grades.	-10°C to +60°C	Inert to many	Extremely Good
MDPE - POLYETHYLENE A tough, slightly less flexible linear medium density. Thermoplastic with good impact strength and recovery from distortion. Suitable for wide temperature use.	-30°C to +80°C	Inert to many	Extremely Good
MDPE - POLYETHYLENE Thermoplastic. Similar properties to high density Polyethylene. Better suited to high temperatures and has a harder surface.	-10°C to +100°C	Inert to many	Extremely Good
SUPERPLAS Thermoplastic material having excellent resistance to abrasion, good impact strength yet light in weight.	-10°C to +100°C	Inert to many Chemicals	Extremely Good
ABS Very rigid and strong with good impact strength.	-40°C to +70°C	Inert to many Chemicals	Very Good
